

**112 O'Connell St, Limerick.**  
**Tel:061-400066**

**Question:**

**I've reached a point in my life where I am utterly sick of shaving unwanted body hair. I really want to try a more long term hair removal method. I've never been waxed but all my friends have**

**been doing it for years and say I should try it. I'm a bit apprehensive so what could you recommend for me that might convince me to give waxing a go?**

**Answer:**

Here at Waxworks, waxing is all we do, so you've come to the right place for advice.... We cater for all types of clients, and are especially sensitive to first time and nervous waxers. Waxing offers the long-term results you are looking for, typically 2 weeks totally hair free. After your third wax you will also notice that the hair re-growth becomes lighter and less

noticeable. At Waxworks we use Lycon, -Australia's premier wax. These are hot peelable waxes which remove the hair without the need for strips, thereby greatly reducing the ouch factor. The Lycon range also contains aromatherapy based oils which are applied so that only the hair and not the skin is pulled when the wax is removed. We offer a full range of treatments for women and men in spacious, luxurious

surroundings, and each treatment room has a tv to help clients relax. There is 10% discount for new clients, and we also offer a loyalty card, student discount , and discount for friend referrals. Waxworks is open Mon-Sat with late appointments available. We are located on 1st floor 112 O'Connell St, (above Timberland). Call 061-400066 or visit our website [www.waxworks.ie](http://www.waxworks.ie).
